Öffnungszeiten: Di. – Fr. 13³⁰h – 18h
Samstag nur nach Vereinbarung

Marck

History

MARCK has spent several years in Zurich, Switzerland working as a “handyman” and finding time to participate regularly in various art projects.

I found MARCK respectively MARCK found LICHT FELD in 2005. He applied for the participation in the exhibition series LICHT FELD. It did not take long to say yes. That was the beginning of a fruitful collaboration. 2007, the first time I took his work to the SCOPE artshow in Miami. Since then more than 15 art fairs followed in Basel, Miami, Wynwood, Istanbul, Chicago, Hamptons where i displayed MARCK's work. In the meantime he is represented in more than 40 collections in the world - see next page. We are also very excited about the upcoming museum exhibitions at Künstlerhaus Klagenfurt, Austria (XX.XY.20013) and the Kunsthaus Prisma, Bozen, Italy (XX.XY.20013).

After 7 years, it is time to organize a solo exhibition by MARCK. We are very proud to display works from 2007 till 2013 and as well his latest and greatest work „Tank“, 3m x 1.5m x 0.4m:

Statement

Who is MARCK and what does he do? He seems to enjoy locking women up in metal boxes only to watch them struggle trying to find the exit, or abandon them on the high seas with nothing but a plank of wood to hold on to. He suspends them in space exposed to a swaying sickle. They are left to fend for themselves in a pool of water, surrounded by four walls with no way out. Are they prisoners of some external circumstances or is this a reflection of an internal struggle for freedom?

MARCK succeeds in confronting us with the Ur-Angst. His interpretation elicits a range of emotions always outdone by the irresistible urge to watch just a little while longer. The woman moves gracefully, searching for a way out, seemingly unaffected by the hopelessness of her situation yet never losing faith in her ability to break out. This struggle, familiar to all of us since birth, the fear of failure and ultimately death... The power of MARCK's work is enhanced by his choice of materials – he transforms an ordinary appliance into a video sculpture. «Pandora's Box» with it's three dimensional appeal serves as the showpiece of this approach.
